## ENVIRONMENTAL, SUSTAINABLE & ETHICAL SUPPLY

We at Flexible Medical Packaging Ltd are committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work.

Where every possible, and through continued improvements, we will endeavour to reduce our environmental impact including carbon footprint, sustainable sourcing, recycling and reducing waste. We will also actively promote supply from ethical sources.

We will operate in compliance with all relevant environmental legislation and we will strive to use pollution prevention, ethical and environmental best practices in all we do.

Our Policy therefore, is to:

- integrate the consideration of environmental concerns and impacts into our decision making and activities.
- minimise our waste and then reuse or recycle as much of it as is possible.
- minimise energy and water use within our buildings and processes in order to conserve supplies and minimise the consumption of natural resources.
- As far as is possible, purchase products and services that do the least damage to the environment from ethically sound sources.
- train, educate and inform our employees about environmental issues that may affect their work.
- promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- communicate our environmental commitment to clients, customers and the public and encourage them to support it.
- where required by legislation or where significant health, safety or environmental hazards exist, develop and maintain appropriate responses.
