

Our Vision

‘To be the first-choice solutions provider of contract manufacturing and formulations, supporting our customers to develop and deliver products into highly regulated markets such as Healthcare, Cosmetics and Nutraceuticals’.

Our Mission

To invest in people and technology so as to ensure the provision of the most cost-effective solutions for our customers.

To support our customers to meet their product development needs with short lead times to market whilst providing the highest level of Quality Assurance.

To provide our customers with quality products and services so as to ensure total satisfaction.

To effectively manage our costs so as to maintain our competitive position in the Healthcare Market.

To ensure all our undertakings are conducted in a professional and ethical manner and thus maintain the trust and support of our valued customers.

To constantly enhance shareholder value.
